My Learning Pathway 2 and 3 AQA Entry Level Certificate 4MB, 4LC, 5CT, 5FB	Maths Year 2/4	Component 4 Money Students will learn through practical activities about the value of coins in everyday use in the UK. They will convert units of money and use a calculator to do simple calculations of money using decimals.		Component 5 Calendar and time Students will learn how to read digital and analogue clocks, including using roman numerals and learn how to convert between 12 and 24-hour times. They will also learn about days, weeks and months of the year.		Component 6 Measures Students will learn through practical activities about methods used to measure length, weight and capacity using standard and non-standard units. They will begin to convert units of length, weight and capacity and learn how to read scales of measurement. They will also learn to compare temperature including temperature with negative values. Component 7 Geometry The student will learn about 2D and 3D shapes and their properties and they will develop an understanding of the size of angles, including right angles. They will also investigate reflective symmetry, nets of solids and use of coordinates.
